Job Outlook

Are you interested in getting your MSW degree? According to the US Department of Labor, demand for social workers is expected to increase in the future faster than average for other jobs (www.bls.gov).

2007 Application

Applications for admission into the MSW program for 2007 will be available late in September of 2006. Applicants may apply at any time after the application is available. Applicants with a BSW degree applying for the advance standing accelerated program should have their applications in by January 15th. The school suggests that all applicants apply by the priority date of February 1st; however applications will be accepted after that date. Final deadlines will be announced in the application materials.

Need to take pre-requisites?

The MSW program requires that all applicants possess a Bachelor's Degree and have taken a course in Statistics and a course in Research Methods. Applicants must also have taken at least 6 classes in social/behavioral science areas, such as social work, sociology, psychology, anthropology, economics, criminal justice and political science. Statistics and research methods can count toward the six social science courses if they were taken in a social science area.

Open Houses

Please plan on joining us at one of our open houses. Prospective students who attend will receive information about the application process, the MSW curriculum and information about social work as a profession. Prospective students will have an opportunity to ask questions, bring a transcript for a consultation, and meet other prospective students. At the October 28th open house, faculty members will be available to interact with students. We hope to see you there. If you need a map or more information, please email or call Susan Larimer (slarimer@iupui.edu) at 317-274-6966. Our website: <http://socialwork.iu.edu>.
